

Speed Up Installation & Save On Labor Costs

"Our new elevators look great – we couldn't ask for anything better."
Facility Manager, Hamilton House

What it does

EPIC Solution is our patented wall panel clipping system and process that allows you to install a cab interior faster than other methods.

How it saves you time

EPIC Solutions system saves you time because the intuitive process guides you in placing and aligning the cab interior parts and less time is spent on final installation.

Does it really work?

One contractor we asked if his experience using EPIC Solution met, exceeded, or fell below his expectations. Here's what he said:

"Actually, it was more than I expected. With other systems I have spent a lot of time measuring and you have to be pretty precise when you measure out and drill holes for zee clips. If they're not in the right place the panels could wobble or not stay in place."

Elevator contractors agree that using EPIC Solution saves them time – they can complete walls in a few hours.

Using EPIC Solution doesn't mean that you compromise on quality – you can still expect G&R's distinct quality of work reflected in the EPIC Solution product line, and this combined with our exceptional on-time rate will ensure your schedule is tight and your labor budget is met.

U.S. Patent No. 9156658, D743057, D748824

EPIC SOLUTION

Features

- Full depth reveals.
- Vertical & horizontal panel configuration. See our [brochure](#) for wall design options.
- An option for weight-sensitive modernizations.
- Stainless steel binder angles included with EPIC wall panels are standard, regardless of design chosen – helping prolong panel life.
- Light weight ceiling options are available with EPIC Solution.

Materials Variety (not limited to)

- Laminate plastic
- Glass
- Metal
- Stone
- Veneer
- Corian®

Production Lead Time

6-10 weeks (depending on availability from the selected materials vendor).

Supporting You

We are committed to providing you with technical field support via phone or on-site. If you call during non-business hours, we will get back to you promptly – our response time is often less than 24-hours.

Our responsive sales engineers can answer questions you may have about our processes, explain in more detail how EPIC Solution works or provide you with a proposal.

Visit GandRCustomCabs.com/Resources for helpful cab survey forms – please keep in mind that in order for you to get the most accurate cost estimate possible we need the most accurate data possible.

We are G&R Custom Elevator Cabs, we make the elevators that no one else can—and we love what we do. Our projects, like elevators, are different from one to the next—each have unique design & manufacturability challenges (we work on less complicated projects too). It's all about providing superior service and high-quality products to our customers, and it's why we've completed over 10,000 elevators & components projects for contractors, architects, facility managers and building owners.
